

Halim Shabalout

Software Engineer | Full-Stack Developer

Jeddah, Saudi Arabia | +966 504 615 016 | halim.codes@gmail.com | github.com/halimShabalout | linkedin.com/in/halim-shabalout

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4+ years of experience building scalable web applications using TypeScript, Next.js, NestJS, and React. Experienced in designing clean, maintainable architectures, developing RESTful APIs, and delivering production-ready solutions across SaaS, payment systems, and enterprise platforms. Passionate about AI-powered products and actively expanding expertise in LLM integration and AI-assisted software development.

TECHNICAL SKILLS

Frontend: TypeScript, React.js, Next.js, JavaScript (ES6+), Redux, SSR, SSG

Backend: NestJS, Node.js, Laravel, RESTful APIs

Database & ORM: PostgreSQL, MySQL, Prisma, TypeORM

DevOps & Cloud: Docker, CI/CD, Vercel, Git

Practices: Clean Architecture, SOLID Principles, Jest, React Testing Library, WordPress

Other: AI-Augmented Development, Prompt Engineering, Agile / Scrum

PROFESSIONAL EXPERIENCE

Freelance Developer & Independent Projects

Sep 2024 – Present

Self-employed — Jeddah, Saudi Arabia

- Delivered full-stack web applications for clients across Saudi Arabia, handling requirements gathering, development, and deployment independently.
- Integrated AI tools (LLMs, prompt engineering) into development workflows to accelerate feature delivery, debugging, and technical research.
- Launched and iterated on Imaginov, a personal AI-powered SaaS product currently in active development (NestJS backend, Next.js frontend).

Software Engineer

Oct 2023 – Sep 2024

Aarti Muhendislik — Mersin, Turkiye

- Engineered an energy management system for Esan (Eczacibasi Group), building RESTful backend APIs with Laravel and interactive frontend dashboards with React.js and Redux.
- Containerized the development environment using Docker, reducing environment-related issues and accelerating onboarding for new developers.
- Designed and implemented new system features that improved monitoring performance and data reliability for industrial energy data.

Project Manager

May 2023 – Sep 2023

Paracim — Konya, Turkiye

- Led end-to-end development of a Virtual POS payment platform, architecting a scalable Laravel backend and a responsive Vue.js frontend.
- Coordinated with cross-functional teams (design, QA, business) to define requirements, track progress, and deliver milestones on schedule.
- Oversaw API integration with payment gateways and ensured system security and reliability under load.

Full-Stack Developer

Apr 2022 – Apr 2023

Logical Defense — Elazig, Turkiye

- Architected and developed a full-stack online education platform handling lessons, exams, and assignments, using Laravel 8 (backend) and Angular 14 (frontend).
- Designed and documented RESTful APIs supporting real-time content delivery and user progress tracking.
- Delivered WordPress-based client projects with custom themes and plugin integrations.

ACHIEVEMENTS

- Built production-ready enterprise applications in Education, Energy Management, and Payment Systems.
- Designed and developed full-stack web applications using Next.js, NestJS, React, and Laravel.
- Delivered projects for clients across Saudi Arabia and Türkiye.
- Experienced working across the complete software lifecycle, from architecture and implementation to deployment.
- Continuously expanding expertise in AI-powered software development and LLM integration.

KEY PROJECTS

Imaginov — AI-Powered SaaS Platform (Personal Project)

Designed and developed the architecture of an AI-powered SaaS platform inspired by modern website builders. Built the backend using NestJS and the frontend with Next.js, implementing authentication, RESTful APIs, AI-powered workflows, and a scalable project structure. The project served as a proof of concept for AI-assisted website generation and modern SaaS architecture.

Freelance Web Development — Multiple Clients

Delivered corporate and CMS websites for Elegant Torch, Etemad Point, and Bonian Alfakhamah — covering full-stack development including custom WordPress themes, responsive UI, and backend integration.

jeddahmarble.com | etimadpoint.cloud | bonianalfakhamah.com

Makkah Orthodontist — Clinic Website (2026)

Designed and developed a fully responsive, bilingual (AR/EN) website for a dental clinic in Makkah, optimized for mobile performance and local SEO.

makkahorthodontist.com

EDUCATION

Firat University — Elazig, Turkiye

2018 – 2022

Bachelor of Science in Software Engineering

LANGUAGES

Arabic — Native Turkish — Fluent English — Professional German — Basic (A1)
